3D Zoo-Themed Learning Experience

Case Studies and Achievement Data

Teresa Adkins

Pre-Kindergarten Teacher

Pre-K: 6-Month Study Pre and Post Assessments

Research shows that "... by the end of PreK, students need to know 18 Uppercase Letters and 15 Lowercase Letters names to be on track for reading success by the end of 1st grade."

Piasta et al., 2012
Journal of Educational Psychology

Mrs. Adkin's class average at the end of the study was 20 Uppercase Letters and 18 Lowercase Letters. In addition, they knew 18 Letter Sounds.

Kindergarten: Results in 26 Days Pre and Post Assessments

"Engagement at the beginning of the year was amazing! Zoo Keeper ABC Boot Camp keeps the students focused so we can learn our letters and sounds! Also, it builds excitement for school which is vital for our students at the beginning of the year! The laughter and squeals are amazing. My students also beg to show visitors our animals! My class scores higher than other classes and also masters letters and sounds faster than others not using this. Also, my students consistently have higher Text Level Assessment data! Yay!"

Greg Smedley-Warren

Kindergarten Teacher
85% ELL Students

Special Ed: Results in 30 Days Pre and Post Assessments

Rachel Engwall

Special Education Teacher
1st Grade

"My kids are obsessed! They love the Alive Studios' resources as much as I do! It is so much fun. I followed the provided lesson plans for whole group, as well as small group and individual differentiated lessons to teach letter recognition, letter sound recognition, CVC words, CVCe words, sight words... whatever needed to be addressed in my students' IEP goals and objectives. They were so engaged and excited that it kept their attention longer than other lessons I have taught. I even had to completely rewrite one of my students' IEPs because he had mastered his goals! I cannot recommend this program highly enough!!"

Independent Research: 90-Day Pre-K Study

Study was designed and led by Dr. Tamra Ogletree. Dr. Ogletree has a Ph.D. in Language and Literacy and a Certificate in Interdisciplinary Qualitative Research from the University of Georgia.

48%

48% increase in letter naming fluency.
This is a 2x gain over non-users.

112%

112% increase in letter sound fluency.
This is a 4x gain over non-users.

Highlights from Pre-K study:

- ✓ 48% increase in letter naming fluency
- ✓ 112% increase in letter sound fluency
- ✓ Classroom management problems decreased
- ✓ Students' attention span increased
- ✓ Computer assisted voice negates effect of regional pronunciation (most benefits for ELL students)
